U. S. TREASURER SPOKE HERE TUESDAY NIGHT

Hon. John Burke, Treasurer of the United States, spoke here Tuesday night at the Methodist church to a packed houseful of people, on the Fourth Liberty Loan.

Hon. John Burke, Treasurer of the United States, spoke here Tuesday night at the Methodist church to a packed houseful of people, on the Fourth Liberty Loan. Mr. Burke is concluding a tour of Southern and Southwestern cities, stimulating interest in the war loan, and has helped a great deal, without doubt. He has a story to tell, based upon knowledge of facts and conditions gained from "on the inside" of the Government, as it were, and he knows how to tell it in a way that arouses his hearers.

Just prior to the speaking, a patriotic song service was held for thirty minutes, in which everyone in the house seemed to participate.

A committee of men met Mr. Burke and entertained him for half an hour prior to the time set for the address.

The local company of the National Guard attended the address in a body commanded by Captain Miller.

SPANISH INFLUENZA SITUATION

The spread of so-called Spanish influenza here, it is believed, will not reach alarming proportions, and for the time it is not thought necessary to suspend schools or prohibit other public gatherings. There are a number of cases, more or less serious, and one death has occurred, but the epidemic is believed to be under complete control. Then, again, there are a large number of cases of bad colds and other kinds of ailments, which are called Spanish influenza, but which are of little or no seriousness at all.

At Denison, the situation is said to be very bad; also at Sherman, and schools, shows, churches, and all public gatherings have been stopped by the municipal authorities. It has also been necessary in Denison to appeal to the physicians of adjoining towns for help in combating the ailment and attend to the sick. It is reported that a large number of fatalities have resulted in Grayson county, with little or no abatement of the epidemic up to Tuesday.

Music and Your Child

Next to love, good music is the most ennobling influence of the human
race. Its effect upon children, its development of their character, the
refinement and culture it brings is far more important than many parents
realize.

No child is too young to feel its effects. From the cradle to maturity,
and particularly through the period of adolescence the youth of our nation
never should be without the constant home influence of good music.

It should be to them an essential part of home-life; it should express to
them the best that their home represents.

There is only one instrument that
RE-CREATES music—that truly is every
other instrument in one. It is
